1- FUNCTIONAL TESTS REQUIRED

Power up the SGD cabinet and verify the fan operates. Open the rear cabinet door, the fan should create enough suction to pull the rear cabinet door closed.

If the door is pushed open, then the fan is wired incorrectly. Check the *Installation Manual, Direction 2223752*. The SGD Gradient tab, *Direction 2202894*, shows the proper connection for Run 042, verify connection.
